

SCHOOL OF THE ENVIRONMENT

# INDUSTRY NIGHT 2024

A career bridge to success

**Wednesday, 28 August**  
**5.00 PM - 8.00 PM**

# Welcome!

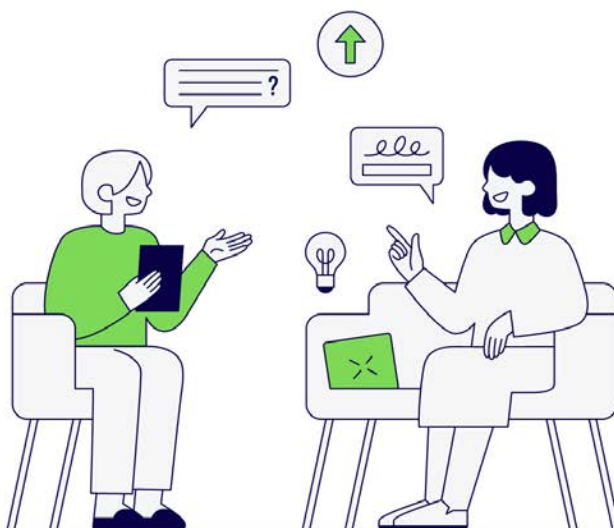

We are thrilled to have you attend the 2024 SENV Industry Night as part of our vibrant **School of the Environment community**. Whether this is your first time in attendance as a new student, or if you're returning to the event as a final year student preparing to enter the workforce, this event is for you!

## Why Attend?

- **Networking Opportunities:** Tonight, you'll have the chance to connect with representatives from various organisations. These professionals are passionate about their work and eager to share their insights with you. Don't be shy—ask questions, exchange ideas, and build meaningful connections!
- **Career Exploration:** The environmental field is vast and diverse. From policy and law to conservation and renewable energy, there's something for everyone. Careers in urban planning involve shaping cities, designing sustainable communities, and balancing growth with environmental stewardship. Use this opportunity to explore different paths and discover where your passion lies.
- **Inspiration:** Our guest speakers and visiting organisations have incredible stories to share. Learn from their experiences, challenges, and triumphs. Who knows? Their journey might provide inspiration for your personal future career direction.

On behalf of the School and our Student Societies, we hope you have a fantastic event and make the best use of all opportunities to network tonight.
